1. Do travel/visit other places while studying abroad.
2. Do engage yourself with the locals. You’ll learn a lot!
3. Do keep an open mind.
4. Do try to learn the language.
5. Do keep a log of how much you’re spending; it helps with budgeting!

1. Don’t overdo it; travel within your country (day trips/ weekend trips).
2. Don’t be embarrassed if you make mistakes when talking; making mistakes is how we learn!
3. Don’t get frustrated if speaking the language doesn’t come easy.
4. Don’t over pack; you’ll be buying stuff left and right and it has to fit in the same suitcases you brought with you.
